🔪 PROFESSIONAL SUMMARY

Computer Science: Game Design graduate with hands-on experience in programming, game development, and collaborative project execution. Experienced at integrating artistic vision with technical implementation, with flexibility to contribute in areas ranging from design to software development. Flexible contributor able to support roles across design, prototyping, and software engineering.

🔧 SKILLS

Languages: C++, C#, C, Python, JavaScript, HTML, CSS, Swift, TypeScript

Tools & Engines: GitHub/GitLab, Visual Studio Code, Xcode, Blender, Adobe Photoshop, GDevelop, Unity, Roblox Studio, Phaser, Vite, React, WebGL

Core Skills: Gameplay systems programming, UI/UX design, Iterative prototyping, Debugging, Version control, Collaborative development

Soft Skills: Teamwork, adaptability, communication, active listening, analytical thinking

📁 WORK EXPERIENCE

Barista

RareTea – Alameda, CA | April 2022 – August 2024

- Maintained efficiency in a fast-paced environment with strong multitasking and communication skills
- Provided consistent, friendly customer service and resolved issues calmly
- Collaborated with team members to support smooth operations and workflow organization

🎓 EDUCATION

B.S. in Computer Science: Game Design

University of California, Santa Cruz

Graduated: June 2026

Relevant Coursework: Game Development Experience, Game Development Patterns, Computer Systems, Data Structures and Algorithms, UI & UX Design, Web Applications, Game Culture, Rapid Prototyping, Computer Graphics

💡 KEY EXPERTISE & HIGHLIGHTS

Gameplay Systems Programming: Comfortable building mechanics that interact with state, input, and environment data

Iterative Prototyping: Experience adjusting gameplay loops based on player feedback and testing

Version Control Collaboration: Regular use of Git for team-based development

Player-Centered Design: Focus on clarity, control responsiveness, and satisfying interaction loops
